# A "SAFE SPACE" for WINLINK

Would you like to learn how to use Winlink in a group and individual instruction environment?

Welcome to the KC4TS Club in person, and learn how to use Winlink at this meeting. Class is open to ALL Amateur Radio Operators. NO CHARGE FOR CLASS

**Date:** Monday, April 24, 2023 - 10:00 AM to 1:00 PM

**Location:** North Courthouse Road Library, Community Room
325 Courthouse Rd, Richmond, VA 23236

The library has wifi, bathrooms, a climate controlled meeting room and is wheelchair accessible.

## Class space is limited. Only 35 seats available - REGISTER NOW !

**RVSP:** https://forms.gle/N9qkS9i9N2c4kQA67

**Instructor:** Your instructor is David Elkins, KN4LQN. He is currently the primary NCS for the "Winlink Wednesday" net which gets OVER 700+ weekly check-ins from a global community of Amateur Radio Operators (https://winlinkwednesday.net). When he is not compiling the weekly Winlink digital check-ins, David is a member of the KC4TS Amateur Radio Club (https://kc4ts.org), the KC4TS ARRL Volunteer Examiner Team Liaison offering monthly local exam opportunities, Chesterfield County ARES EC, weekly participant with the Windy Hill NCO Training Net, and an active POTA activator.

- You will learn how to install Winlink on your computer
- Register your Amateur Radio Call in Winlink
- Receive group and individual instruction on operation of Winlink
- How to use different templates for messages AND how to create your custom templates
- Create, send and receive Winlink messages during the class
- Learn about the different ways to send / receive your Winlink messages
